

Bathtub

Level: Intermediate

Using the basic shapes key above, follow the easy step-by-step instructions below to make your PLAY-DOH creation. Keep practicing, and you'll get better at making all of the shapes. Use our color suggestions, or try your own! The less shapes you use, the more simple your creation. The more shapes you add, the more complex it becomes.

For the tub, make a large, long tube, then round off the ends and top. Roll a long, fat rope for the rim and two very short fat ropes for feet.

Make two more short fat ropes for feet. Then roll lots of tiny balls for bubbles. Flip the tub so the flat side is up. Pinch one end of each of the feet to make it flat.

Attach the flat ends of the feet to the tub. To add the rim, wrap the long rope around the tub. Add the bubbles. Next roll one small ball for the tap and two smaller balls for the faucets. Place the tap at the tub's end.

Attach the two faucets on either side of the tap, and add more soap bubbles if you want. You're done! All you need now is a rubber duckie!

Backpack

Level: Intermediate

Using the basic shapes key above, follow the easy step-by-step instructions below to make your PLAY-DOH creation. Keep practicing, and you'll get better at making all of the shapes. Use our color suggestions, or try your own! The less shapes you use, the more simple your creation. The more shapes you add, the more complex it becomes.

For the main part of the backpack, make a large cube and then round off its top and bottom as shown. Make three small cubes and one flat square. Make a larger flat square for the top flap of the backpack.

To make the front pouch, place one small cube on the front of the backpack, then add one

flat square to the pouch to make its flap. To make the top flap, place the larger square on the top of the backpack. Roll two fat ropes.

To make the side pouches, place the last two squares on the sides. To make the straps, flatten both ropes and attach the ends to the back of the backpack.

Roll two very short ropes and flatten them. Add them to the front of the backpack to make handles for the flaps. What a cool backpack! Now try making your own books or camping gear.

Camera

Level: Intermediate

Using the basic shapes key above, follow the easy step-by-step instructions below to make your PLAY-DOH creation. Keep practicing, and you'll get better at making all of the shapes. Use our color suggestions, or try your own! The less shapes you use, the more simple your creation. The more shapes you add, the more complex it becomes.

Make a rectangular cube for the camera's body. Shape two flat squares, one a little smaller than the other. Make a long rope. Roll one small ball and one medium-sized ball, then flatten into circles with your finger.

For the viewfinder, stack the smaller square on the bigger one and place on the top of the

camera. Stack the two circles as shown to make the lens. Roll three more tiny balls and flatten the rope you made in step one.

Place the lens on the camera. Flatten the tiny balls slightly, then stack two above the viewfinder to be the camera's button. Make the camera strap by bending your flattened rope so its ends touch.

Attach the strap to the side of the camera and add the last flat circle as the fastener. Now you can jazz up your camera up with extra buttons. Wow! Building that camera was a snap!

Gecko

Level: Intermediate

Using the basic shapes key above, follow the easy step-by-step instructions below to make your PLAY-DOH creation. Keep practicing, and you'll get better at making all of the shapes. Use our color suggestions, or try your own! The less shapes you use, the more simple your creation. The more shapes you add, the more complex it becomes.

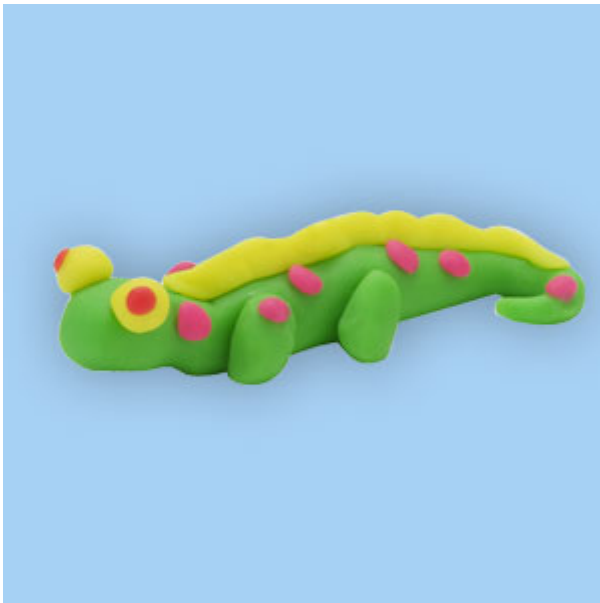

Make one long, skinny rope and four short, fat tubes. Then roll a long, fat rope for the lizard's body. Squish or roll one end of the body into a point for his tail.

Pinch the fat end of the lizard's body to form his neck and head. Then attach the four tubes to his sides for legs. Place the long, skinny rope on top of the body, and pinch it to make a bumpy spine. Make two medium-sized balls for eyes, and lots of tiny balls.

Place one tiny ball at the center of each eye, and place the eyes on the head. Flatten the other tiny balls and place them on the lizard's body to make spots.

Leaping lizards! You've made a scaly little pet!

Skateboard

Level: Intermediate

Using the basic shapes key above, follow the easy step-by-step instructions below to make your PLAY-DOH creation. Keep practicing, and you'll get better at making all of the shapes. Use our color suggestions, or try your own! The less shapes you use, the more simple your creation. The more shapes you add, the more complex it becomes.

Roll two small tubes. Then make a long, fat tube and flatten it into a skateboard shape—square on one end and rounded on the other. Place the board on the small tubes to give the skateboard wheels.

Roll two tiny balls and a long skinny rope. Then make a flat square and pinch out its corners to form a diamond shape.

Lay the skinny rope in a zigzag on the diamond to make a cool logo for your skateboard. Flatten the tiny balls and place them in the center of the wheels to make axles.

Add the logo to the top of the skateboard and you're done! That's a pretty rad skateboard. What other cool sports stuff can you make? - or: Try coming up with your own logo for the top of your skateboard!

Rootbeer Float

Level: Intermediate

Using the basic shapes key above, follow the easy step-by-step instructions below to make your PLAY-DOH creation. Keep practicing, and you'll get better at making all of the shapes. Use our color suggestions, or try your own! The less shapes you use, the more simple your creation. The more shapes you add, the more complex it becomes.

To make the glass, roll a short, fat tube. Then roll one fat rope and some skinny ropes, too. Roll a ball and flatten it into a circle.

Place the circle on top of the glass to make it look like it's full of root beer. Flatten the skinny ropes and place them on the sides of the glass as shown. Bend the ends of the fat rope to make a handle. Now roll another ball.

Place the handle on the glass. Flatten one side of the ball against the table and pinch the top to make it look like a big, melty scoop of ice cream. Place the ice cream on top of the glass.

Squeeze the edges of the ice cream to make it drip over the edges of the glass. Great job! That's one frosty mug of pretend rootbeer!

Saturn

Level: Intermediate

Using the basic shapes key above, follow the easy step-by-step instructions below to make your PLAY-DOH creation. Keep practicing, and you'll get better at making all of the shapes. Use our color suggestions, or try your own! The less shapes you use, the more simple your creation. The more shapes you add, the more complex it becomes.

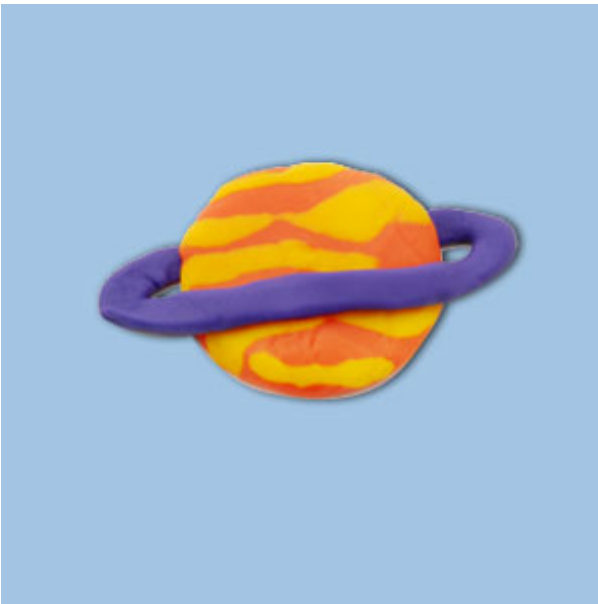

Make a large circle. This will be the planet. Then make some short, flattened ropes for the planet's stripes. Pinch or twist the ropes to make them fat in some places and skinny in others, then place them on the planet.

Press the stripes onto the planet. Then roll a long skinny rope.

To make the planet's ring, flatten the long skinny rope, then place it on the planet so it goes across the middle. Wrap the ends of the rope around so that they're hidden behind the planet.

Good job! Now you can make more planets and create your own solar system!

Planet

Level: Intermediate

Using the basic shapes key above, follow the easy step-by-step instructions below to make your PLAY-DOH creation. Keep practicing, and you'll get better at making all of the shapes. Use our color suggestions, or try your own! The less shapes you use, the more simple your creation. The more shapes you add, the more complex it becomes.

Make a large flat circle for the planet. Shape two small blobs into continents. (Look at a map to see how the continents are shaped, or make up your own!)

Place the continents on the planet. Shape more PLAY-DOH into islands and other landforms and add those, too. Make a short white rope and flatten it, then place it on the bottom for your southern ice cap.

Make another short white rope and flatten it, then place it on the top for your northern ice cap.

Congratulations, you've just created your own planet. You can make a whole world out of PLAY-DOH!

Drum Set

Level: Intermediate

Using the basic shapes key above, follow the easy step-by-step instructions below to make your PLAY-DOH creation. Keep practicing, and you'll get better at making all of the shapes. Use our color suggestions, or try your own! The less shapes you use, the more simple your creation. The more shapes you add, the more complex it becomes.

Roll a ball and flatten the top and bottom for the drum. Make 2 ropes. Roll a small ball and flatten it into a circle.

Place the flat circle on the top of the drum. Roll out your ropes so they are long enough to stretch all the way around the drum, then flatten them. Roll two ropes for drum sticks.

Wrap one flat rope around the top of the drum and another around the bottom. Roll 6 short thin ropes and place them around the sides of the drum.

Place the sticks on top of the drum. Good job. You just made yourself a snazzy snare drum!

Tulip

Level: Intermediate

Using the basic shapes key above, follow the easy step-by-step instructions below to make your PLAY-DOH creation. Keep practicing, and you'll get better at making all of the shapes. Use our color suggestions, or try your own! The less shapes you use, the more simple your creation. The more shapes you add, the more complex it becomes.

Make a long rope for the stem. Make 2 short, fatter ropes for the leaves. Pinch and flatten one end of each into a point.

Place the wide end of one leaf over the bottom of the stem. Flatten the second leaf over the first one. For the petals, make 3 flat circles. Pinch one side of each into a point.

Place one petal at the top of the stem, tilted to one side. Place a second petal over this one, tilting the other way.

Place the third petal in the middle, overlapping the first two. How pretty! A fresh spring flower to brighten your day!

Beach Ball

Level: Intermediate

Using the basic shapes key above, follow the easy step-by-step instructions below to make your PLAY-DOH creation. Keep practicing, and you'll get better at making all of the shapes. Use our color suggestions, or try your own! The less shapes you use, the more simple your creation. The more shapes you add, the more complex it becomes.

Roll a ball and four ropes. Pinch the ends of the ropes to make them pointy and then flatten them to make the ball's stripes.

Place the stripes on the ball so the pointed ends touch on the top and bottom. Then roll two smaller balls.

Flatten the small balls by pressing on them. Then place them on the top and bottom of your beach ball.

Great job! Now try to make a ball that goes with your favorite sport.

Beehive

Level: Intermediate

Using the basic shapes key above, follow the easy step-by-step instructions below to make your PLAY-DOH creation. Keep practicing, and you'll get better at making all of the shapes. Use our color suggestions, or try your own! The less shapes you use, the more simple your creation. The more shapes you add, the more complex it becomes.

Make half of a ball and a flat circle. Place the flat side of the ball onto the circle. Make some short and long ropes.

Begin wrapping your ropes around the ball. Use the longest ropes on the bottom and work your way up. Then make a small ball.

Flatten the small ball into a half circle to make the door.

Place the door on your hive. Bzzzzz! What a cozy beehive!

Balloons

Level: Intermediate

Using the basic shapes key above, follow the easy step-by-step instructions below to make your PLAY-DOH creation. Keep practicing, and you'll get better at making all of the shapes. Use our color suggestions, or try your own! The less shapes you use, the more simple your creation. The more shapes you add, the more complex it becomes.

Make three small cones and three skinny balls. Flatten the balls to make three mounds for the balloons and pinch the bottoms to make them pointy. Lay the cones on their sides.

Flatten the cones slightly. Attach the pointy ends of the cones to the pointy ends of the balloons. Roll out three long skinny ropes and one short skinny rope.

Tuck the ends of the long ropes behind the cones to make the balloon strings. Attach pieces of the shorter rope to make the ties.

Now just twist the balloon strings together and you're done! Great job – you've just made yourself a whole bunch of balloons!

Pig

Level: Intermediate

Using the basic shapes key above, follow the easy step-by-step instructions below to make your PLAY-DOH creation. Keep practicing, and you'll get better at making all of the shapes. Use our color suggestions, or try your own! The less shapes you use, the more simple your creation. The more shapes you add, the more complex it becomes.

Roll 4 short, thick pieces of rope and place in a square for the feet. Roll a large ball and shape into an oval for the body. Roll a smaller ball for the head.

Place oval on top of feet for the body. Attach head to body. Make 2 circles for the eyes. Make 2 smaller circles and place them on top of the eyes for the pupils. Make a circle for

the nose. Make 2 small circles and pinch them into triangles for the ears. Roll a small, thin, piece of rope for the tail.

Attach ears, eyes and nose to head. Attach tail and shape into a corkscrew. Pinch the tip of the tail into a point.

You've made the perfect little pig! Great job!

House

Level: Intermediate

Using the basic shapes key above, follow the easy step-by-step instructions below to make your PLAY-DOH creation. Keep practicing, and you'll get better at making all of the shapes. Use our color suggestions, or try your own! The less shapes you use, the more simple your creation. The more shapes you add, the more complex it becomes.

Make a large square for the house. Make a triangle for the roof. Roll two little pieces of rope. Roll a third piece of rope slightly larger.

Attach the roof to the house. Flatten the larger piece of rope and shape to make a door. Attach door to house. Flatten smaller pieces of rope and form to make windows. Roll a third piece of rope and attach to roof for chimney.

Attach windows to house. Roll 2 more pieces of rope. Break and half and attach to windows to make windowpanes.

Make a circle and place on door for doorknob. Ta da! Now try and make a whole neighborhood!

House

Level: Intermediate

Using the basic shapes key above, follow the easy step-by-step instructions below to make your PLAY-DOH creation. Keep practicing, and you'll get better at making all of the shapes. Use our color suggestions, or try your own! The less shapes you use, the more simple your creation. The more shapes you add, the more complex it becomes.

Make a large square for the house. Make a triangle for the roof. Roll two little pieces of rope. Roll a third piece of rope slightly larger.

Attach the roof to the house. Flatten the larger piece of rope and shape to make a door. Attach door to house. Flatten smaller pieces of rope and form to make windows. Roll a third piece of rope and attach to roof for chimney.

Attach windows to house. Roll 2 more pieces of rope. Break and half and attach to windows to make windowpanes.

Make a circle and place on door for doorknob. Ta da! Now try and make a whole neighborhood!

Mr. Potato Head

Level: Intermediate

Using the basic shapes key above, follow the easy step-by-step instructions below to make your PLAY-DOH creation. Keep practicing, and you'll get better at making all of the shapes. Use our color suggestions, or try your own! The less shapes you use, the more simple your creation. The more shapes you add, the more complex it becomes.

Make a ball and shape into potato body. Make 2 smaller balls and shape to make shoes.

Place potato body on shoes. Make 2 balls and shape to make ears. Make 2 circles and flatten to make nose. Make a ball and shape to make nose.

Place ears, eyes and nose on potato body. Make 2 circles to place on eyes for pupils. Make a piece of rope and shape to make mustache. Attach mustache. Make a ball and pinch to make a bowl shape for a hat. Make a long piece of rope and a small ball.

Attach rope and ball to hat. Place hat on potato head. You're a super Play-Doh spud artist! Great job

Sled

Level: Intermediate

Using the basic shapes key above, follow the easy step-by-step instructions below to make your PLAY-DOH creation. Keep practicing, and you'll get better at making all of the shapes. Use our color suggestions, or try your own! The less shapes you use, the more simple your creation. The more shapes you add, the more complex it becomes.

Roll 2 pieces of rope. Flatten and roll one end to make rails.

Roll 3 short pieces of rope and place them on each rail.

Make a flat square and shape into a rectangle for the seat.

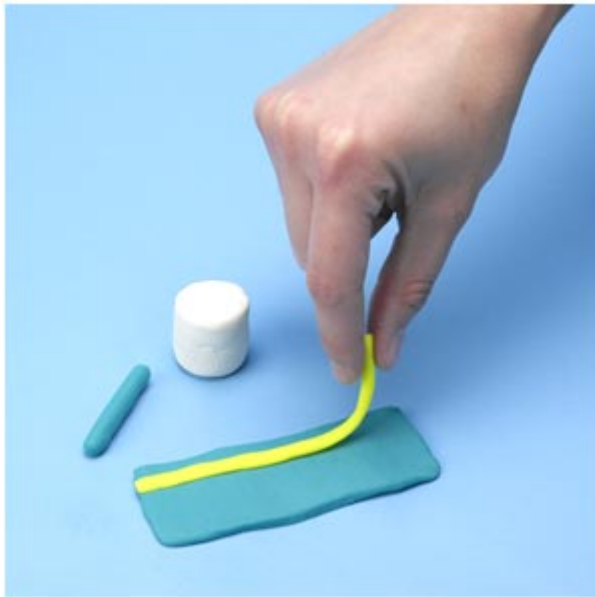

Attach seat to rails. That's so cool! Now try making a Play-Doh hill of snow!

Mug

Level: Intermediate

Using the basic shapes key above, follow the easy step-by-step instructions below to make your PLAY-DOH creation. Keep practicing, and you'll get better at making all of the shapes. Use our color suggestions, or try your own! The less shapes you use, the more simple your creation. The more shapes you add, the more complex it becomes.

Make a flat rectangle for the mug. Make a short, chunky piece of rope for the liquid. Make a short, thin piece of rope for the handle. Make a long, thin piece of rope. Flatten it and attach down one side of the rectangle.

Turn the rectangle over so the stripe is facing down. Place liquid at one end of rectangle and roll rectangle around the liquid.

Attach the handle to the mug.

Congratulations on making a fine mug!

Fortune Cookie

Level: Intermediate

Using the basic shapes key above, follow the easy step-by-step instructions below to make your PLAY-DOH creation. Keep practicing, and you'll get better at making all of the shapes. Use our color suggestions, or try your own! The less shapes you use, the more simple your creation. The more shapes you add, the more complex it becomes.

[Print out instructions](#)

Roll a circle and thick piece of rope. Flatten the piece of rope to make a long rectangle.

Place the rectangle on the circle so that it is hanging over one side. Fold the circle in half with rectangle hanging out. Pinch edges of circle together.

Mold half circle into a crescent shape.

Great job! Use your imagination and you're sure to discover more of your own creative fortune!

Blueberry Pie

Level: Intermediate

Using the basic shapes key above, follow the easy step-by-step instructions below to make your PLAY-DOH creation. Keep practicing, and you'll get better at making all of the shapes. Use our color suggestions, or try your own! The less shapes you use, the more simple your creation. The more shapes you add, the more complex it becomes.

[Print out instructions](#)

Make a ball and start pinching from center to form a bowl.

Continue pressing out the bowl to form the crust.

Roll lots of small balls and stack them inside the crust. Roll 6 pieces of rope all the same length and flatten. Place a piece of rope across top of pie for the latticework.

Continue to flatten pieces of rope and criss-cross over top of pie to complete latticework. Pinch edges of lattice to crust. Use a Play-Doh knife to indent along edge of crust. That is one realistic-looking pie! Way to go!

Snowflake

Level: Intermediate

Using the basic shapes key above, follow the easy step-by-step instructions below to make your PLAY-DOH creation. Keep practicing, and you'll get better at making all of the shapes. Use our color suggestions, or try your own! The less shapes you use, the more simple your creation. The more shapes you add, the more complex it becomes.

[Print out instructions](#)

Make a circle and several balls. Make 3 pieces of rope equal in length. Make an "X" with 2 pieces of rope.

Place the third piece of rope across the middle of the "X." Roll small, thin pieces of rope

and attach 3 pieces to the ends of each larger rope. Place a small circle on each piece of rope just above the small pieces of rope.

Pinch sides of circle to make a star-like shape. Place the circle in the center of the snowflake.

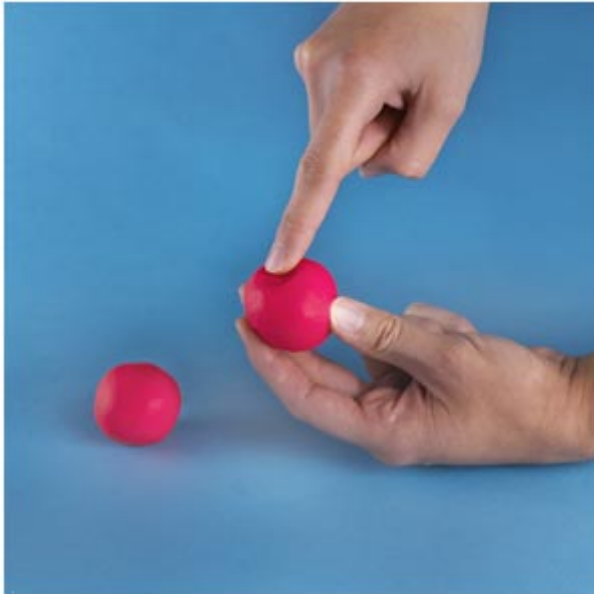

Let it snow! That's one of the prettiest snowflakes!

Apple

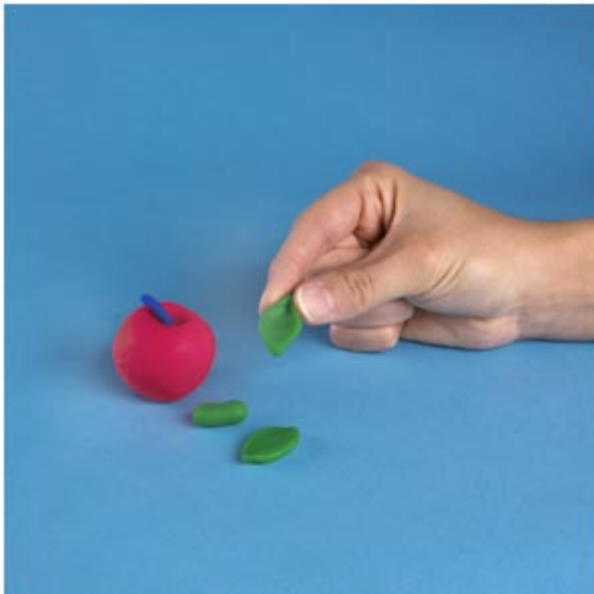

Level: Intermediate

Using the basic shapes key above, follow the easy step-by-step instructions below to make your PLAY-DOH creation. Keep practicing, and you'll get better at making all of the shapes. Use our color suggestions, or try your own! The less shapes you use, the more simple your creation. The more shapes you add, the more complex it becomes.

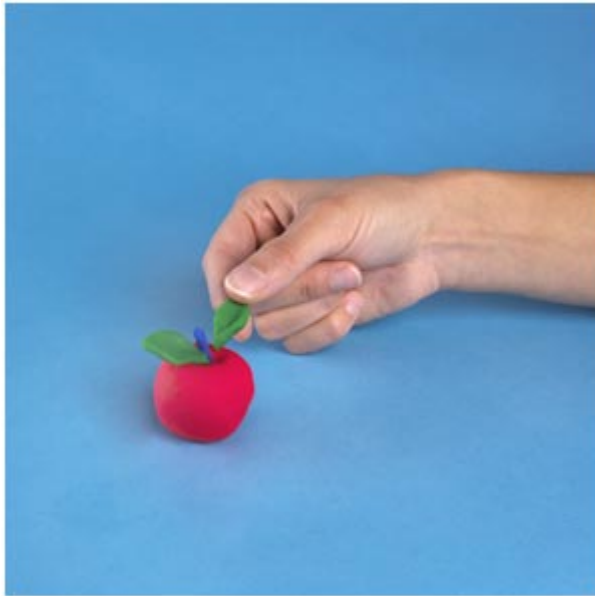

[Print out instructions](#)

Roll a ball. Use your finger to make a shallow notch on the top.

Roll a short, thin piece of rope for the stem and lay it in the notch. Roll 2 short, thick pieces of rope and press and shape into ovals for the leaves.

Press one leaf on either side of the stem.

Very good! Make a PLAY-DOH apple each day to help remain in a creative way!

Hotdog

Level: Intermediate

Using the basic shapes key above, follow the easy step-by-step instructions below to make your PLAY-DOH creation. Keep practicing, and you'll get better at making all of the shapes. Use our color suggestions, or try your own! The less shapes you use, the more simple your creation. The more shapes you add, the more complex it becomes.

[Print out instructions](#)

Roll a large, thick rope, rounding the ends, for the hotdog. Shape a large square and flatten into a rectangle for the bun.

Place hotdog in bun and mold bun around hot dog. Roll a long, thin rope for the mustard.

Place rope in squiggly pattern on top of hot dog to add your “squirt” of mustard (or ketchup if you prefer!).

Flower Pot

Level: Intermediate

Using the basic shapes key above, follow the easy step-by-step instructions below to make your PLAY-DOH creation. Keep practicing, and you'll get better at making all of the shapes. Use our color suggestions, or try your own! The less shapes you use, the more simple your creation. The more shapes you add, the more complex it becomes.

[Print out instructions](#)

Roll a large ball. Pressing in the center, forming into a pot shape.

Roll 3 long ropes.

Attach one rope in an “s” pattern along side of pot. Attach other rope along top rim of pot.

Press more rope along bottom rim of pot to form base. Create your own flower or plant to go inside! Great job making a flowerpot! You make it look so easy!

Watermelon

Level: Intermediate

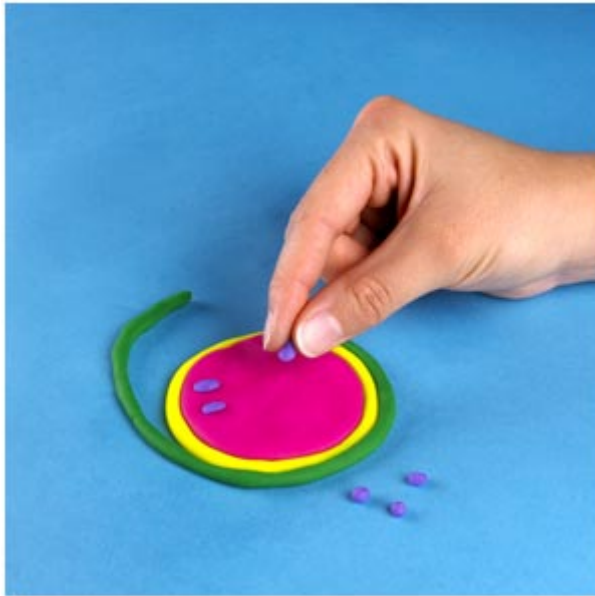

Using the basic shapes key above, follow the easy step-by-step instructions below to make your PLAY-DOH creation. Keep practicing, and you'll get better at making all of the shapes. Use our color suggestions, or try your own! The less shapes you use, the more simple your creation. The more shapes you add, the more complex it becomes.

[Print out instructions](#)

Roll a large ball and flatten into a circle.

Roll 2 long ropes.

Wrap each rope around the circle. Roll small balls and flatten into ovals for seeds.

Cut circle in half and smooth out edges. What a treat! Now you have a slice of watermelon! Great job!

Octopus

Level: Intermediate

Using the basic shapes key above, follow the easy step-by-step instructions below to make your PLAY-DOH creation. Keep practicing, and you'll get better at making all of the shapes. Use our color suggestions, or try your own! The less shapes you use, the more simple your creation. The more shapes you add, the more complex it becomes.

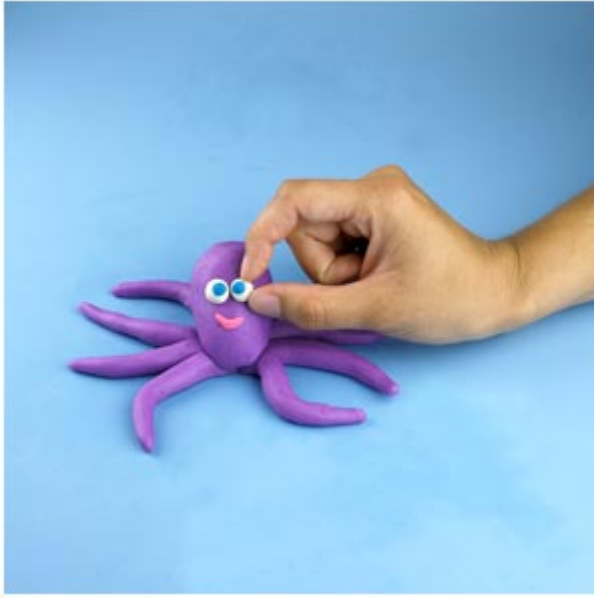

[Print out instructions](#)

Roll a large ball and shape into a thick oval. Roll 8 ropes, making one end a little thicker.

Arrange thick end of ropes in a circle and attach in the middle. Shape them into tentacles. Place the oval on top of the ropes for the body.

Roll 2 balls and flatten for eyes. Roll 2 smaller balls, flatten and place on eyes for pupils. Roll small piece of rope, flatten and shape to make mouth.

Roll lots of balls of various sizes, flatten and place all over octopus to make suckers. Way to go! That octopus you made is really cool!

Pizza Slice

Level: Intermediate

Using the basic shapes key above, follow the easy step-by-step instructions below to make your PLAY-DOH creation. Keep practicing, and you'll get better at making all of the shapes. Use our color suggestions, or try your own! The less shapes you use, the more simple your creation. The more shapes you add, the more complex it becomes.

[Print out instructions](#)

Roll a cone, then flatten and shape into pizza crust.

Roll balls and ropes. Flatten and shape to make pepperoni slices, and red and green pepper.

Decorate your slice with your PLAY-DOH toppings. Roll small ropes and sprinkle on top to add cheese.

Yum! That slice of pizza you made looks scrumptious! Great job!

Birthday Cake

Level: Intermediate

Using the basic shapes key above, follow the easy step-by-step instructions below to make your PLAY-DOH creation. Keep practicing, and you'll get better at making all of the shapes. Use our color suggestions, or try your own! The less shapes you use, the more simple your creation. The more shapes you add, the more complex it becomes.

[Print out instructions](#)

Roll a ball and flatten two opposite sides to form cake.

Roll another ball and flatten with irregular edges for icing.

Form icing on top of cake. Roll a piece of rope and attach it in an “s” pattern along bottom of cake. Roll pieces for rope for candles. Roll balls and shape into cones for flames. Attach flames to candles and place candles on cake.

Excellent! Make a wish and serve your pretend treat!

Hamburger

Level: Intermediate

Using the basic shapes key above, follow the easy step-by-step instructions below to make your PLAY-DOH creation. Keep practicing, and you'll get better at making all of the shapes. Use our color suggestions, or try your own! The less shapes you use, the more simple your creation. The more shapes you add, the more complex it becomes.

[Print out instructions](#)

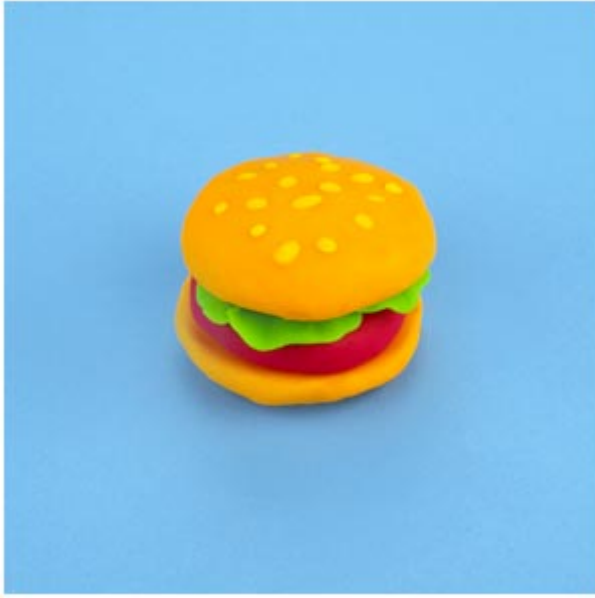

Roll a ball. Then flatten and shape hamburger patty. Roll 2 more balls and flatten and shape bun.

Place patty on bottom half of bun. Roll 3 small balls and flatten to circles. Pinch to shape into lettuce.

Place top half of bun on top. Roll small ovals and flatten to shape into sesame seeds. Mold to top of bun.

Good job! That hamburger you made is making me hungry!

Butterfly

Level: Intermediate

Using the basic shapes key above, follow the easy step-by-step instructions below to make your PLAY-DOH creation. Keep practicing, and you'll get better at making all of the shapes. Use our color suggestions, or try your own! The less shapes you use, the more simple your creation. The more shapes you add, the more complex it becomes.

[Print out instructions](#)

Roll a large cone to use as the butterfly's body.

Roll 2 medium-sized and 2 small cones. Flatten them and connect to create wings.

Roll small cones and circles. Flatten and use to decorate wings.

Add the body and roll a small ball to use as the head. Roll a piece of very thin rope to use for smile and antennae. Make 2 small circles for eyes, and two smaller circles for pupils. Way to go! You just made a butterfly!

Car

Level: Intermediate

Using the basic shapes key above, follow the easy step-by-step instructions below to make your PLAY-DOH creation. Keep practicing, and you'll get better at making all of the shapes. Use our color suggestions, or try your own! The less shapes you use, the more simple your creation. The more shapes you add, the more complex it becomes.

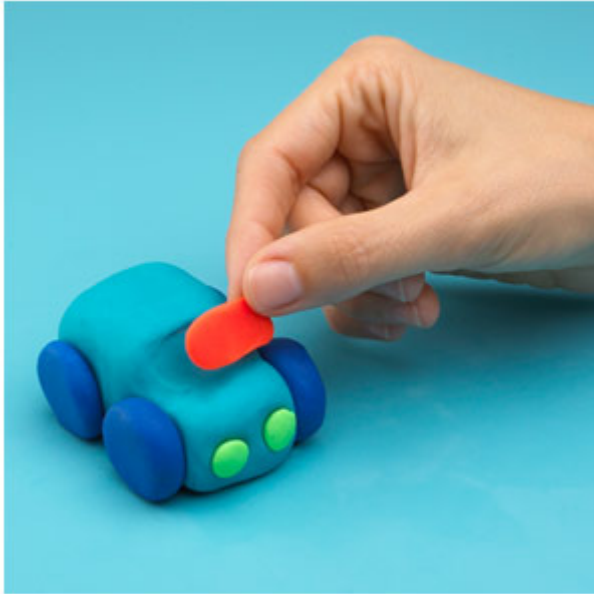

[Print out instructions](#)

Make a medium-sized rectangle and flatten one corner with your finger to make the body. Make 2 small circles and attach to car as headlights.

Roll 4 same-sized balls and flatten to make thick circles.

Attach circles to car as wheels. Make a small oval or rectangle to be used as the windshield.

You're amazing! You just made a car!

Airplane

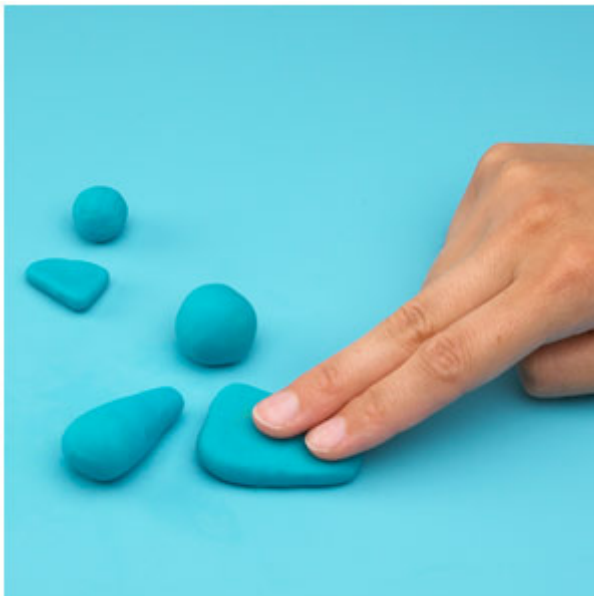

Level: Intermediate

Using the basic shapes key above, follow the easy step-by-step instructions below to make your PLAY-DOH creation. Keep practicing, and you'll get better at making all of the shapes. Use our color suggestions, or try your own! The less shapes you use, the more simple your creation. The more shapes you add, the more complex it becomes.

[Print out instructions](#)

Roll thick log and shape to use as body for plane.

Roll 3 small cones and flatten to shape tail fins. Roll two medium-sized cones and flatten and shape into triangles to make wings for plane.

Attach wing pieces. Roll a small ball, then flatten and shape to oval to use for cockpit window.

Way to go! You just made a plane!

Snowman

Level: Intermediate

Using the basic shapes key above, follow the easy step-by-step instructions below to make your PLAY-DOH creation. Keep practicing, and you'll get better at making all of the shapes. Use our color suggestions, or try your own! The less shapes you use, the more simple your creation. The more shapes you add, the more complex it becomes.

[Print out instructions](#)

Roll a medium-sized rope and flatten. Set aside to use for scarf.

Roll a small, medium and large-sized ball. Stack the balls, placing the largest on the

bottom and the smallest on the top to form the snowman's head and body. Wrap scarf around snowmans "neck."

Roll cone large enough to be used for snowman's hat. Tip the point to one side.

Roll a small ball and attach to point of hat as a pom pom. Roll a short rope and flatten to put around base of hat. Make 2 small circles and attach as eyes. Roll a small rope and flatten for mouth. Roll a small cone and attach for nose. Amazing! You just made a snowman!

Spaceship

Level: Intermediate

Using the basic shapes key above, follow the easy step-by-step instructions below to make your PLAY-DOH creation. Keep practicing, and you'll get better at making all of the shapes. Use our color suggestions, or try your own! The less shapes you use, the more simple your creation. The more shapes you add, the more complex it becomes.

[Print out instructions](#)

Roll a ball and start to flatten, leaving a small mound of compound on the top and bottom.

Roll a bunch of small balls and flatten them into ovals to make lights.

Roll a ball and flatten to a half-ball to use as top of spaceship. Roll several smaller balls and flatten and shape for windows.

Attach top part of spaceship and windows. Take me to your leader! You just made a spaceship!

Carrot

Level: Intermediate

Using the basic shapes key above, follow the easy step-by-step instructions below to make your PLAY-DOH creation. Keep practicing, and you'll get better at making all of the shapes. Use our color suggestions, or try your own! The less shapes you use, the more simple your creation. The more shapes you add, the more complex it becomes.

[Print out instructions](#)

Roll two thick ropes, making one end thinner to form the shape of the carrot. Roll 2 small ropes to be used for the stems.

Flatten one end of the stem piece and crinkle.

Attach 2 stem pieces to top of carrot.

Using a plastic PLAY-DOH knife, cut grooves into the carrot, varying the distance between grooves. That looks great! You did a great job making the carrot!

Duck

Level: Intermediate

Using the basic shapes key above, follow the easy step-by-step instructions below to make your PLAY-DOH creation. Keep practicing, and you'll get better at making all of the shapes. Use our color suggestions, or try your own! The less shapes you use, the more simple your creation. The more shapes you add, the more complex it becomes.

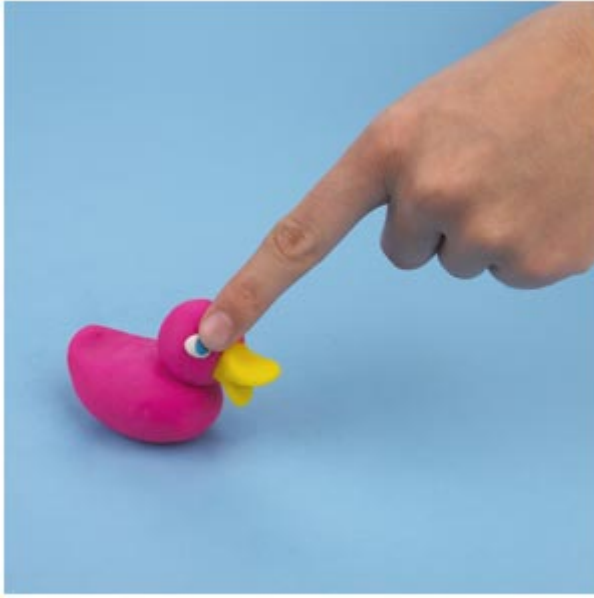

[Print out instructions](#)

Roll a small-sized ball for the head. Roll a medium- sized ball into an oval, flattening one end, for the body. Roll 2 short, thick pieces of rope for the duck's bill.

Attach head to body. Slightly flatten ropes and attach at one end as shown.

Attach bill to head. Roll 2 small circles for eyes. Roll 2 smaller circles for the pupils and press them onto the eyes.

Great job! You just made a duck!

Sun

Level: Intermediate

Using the basic shapes key above, follow the easy step-by-step instructions below to make your PLAY-DOH creation. Keep practicing, and you'll get better at making all of the shapes. Use our color suggestions, or try your own! The less shapes you use, the more simple your creation. The more shapes you add, the more complex it becomes.

[Print out instructions](#)

Shape a circle and make 9 small cones to be used for the sun's "rays." Flatten cones to make triangles.

Place triangles around the circle as shown. Roll 2 tiny balls for the eyes. Roll small, thin rope for the mouth. Roll 2 balls for corner of mouth.

Flatten 2 tiny balls for eyes. Use small thin rope to make smile and place to small balls at either end of smile. Flatten balls to circles.

You're really bright! You just made a sun! Great job!

Easter Egg

Level: Intermediate

Using the basic shapes key above, follow the easy step-by-step instructions below to make your PLAY-DOH creation. Keep practicing, and you'll get better at making all of the shapes. Use our color suggestions, or try your own! The less shapes you use, the more simple your creation. The more shapes you add, the more complex it becomes.

[Print out instructions](#)

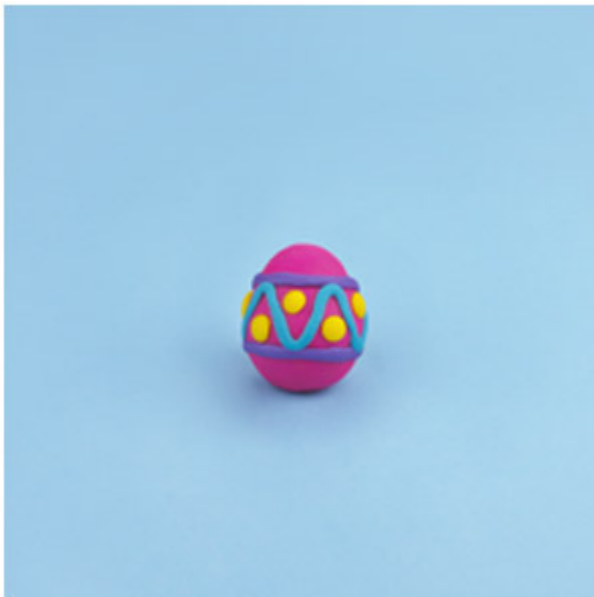

Roll a medium-sized ball and shape an egg. Roll 2 thin ropes and 2 small balls.

Lay ropes on top and bottom of egg. Roll a longer rope and lay it in a zig-zag between the ropes. Roll more balls.

Flatten balls to circles and place in between zig zags.

Way to go! You've made an egg-stra special creation!

Ice Cream Cone

Level: Intermediate

Using the basic shapes key above, follow the easy step-by-step instructions below to make your PLAY-DOH creation. Keep practicing, and you'll get better at making all of the shapes. Use our color suggestions, or try your own! The less shapes you use, the more simple your creation. The more shapes you add, the more complex it becomes.

[Print out instructions](#)

Roll a large ball and shape into a thick cylinder as shown. Make a thick circle, slightly larger than cylinder and place on top to form cone.

Roll a medium-sized ball for one scoop of ice cream. Roll a second, slightly small ball for second scoop of ice cream. Flatten second scoop around the edges as shown.

Place first scoop of ice cream on top of cone. Slightly flatten edges to give it "scoop" shape as shown. Place second scoop of ice cream on top.

Make tiny and small balls of different colors and flatten on ice cream to make "sprinkles."
Roll a small ball for cherry and place on top of ice cream.

Using a PLAY-DOH knife, cut waffle pattern into cone as shown. You're all the scoop!
Way to go making an ice cream cone!

Bee

Level: Intermediate

Using the basic shapes key above, follow the easy step-by-step instructions below to make your PLAY-DOH creation. Keep practicing, and you'll get better at making all of the shapes. Use our color suggestions, or try your own! The less shapes you use, the more simple your creation. The more shapes you add, the more complex it becomes.

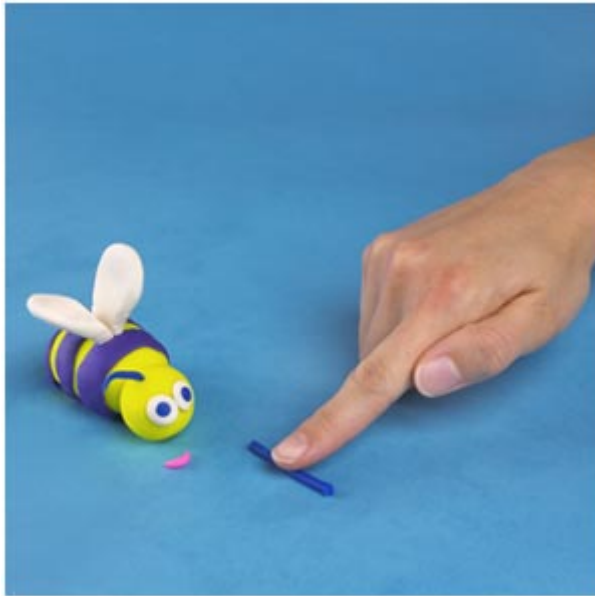

[Print out instructions](#)

Roll a ball and an oval. Roll 2 ropes and flatten to use for the bees stripes

Attach ball to the oval. Lay stripes around body. Roll 2 cones and flatten to shape into wings.

Attach wings. Roll 2 small circles for eyes and 2 smaller circles for pupils and attach to head. Roll small rope for mouth. Roll ropes antennae and mouth.

Attach mouth and antennae. Great job! You're just buzzing with creativity

Ice Cream Sundae

Level: Intermediate

Using the basic shapes key above, follow the easy step-by-step instructions below to make your PLAY-DOH creation. Keep practicing, and you'll get better at making all of the shapes. Use our color suggestions, or try your own! The less shapes you use, the more simple your creation. The more shapes you add, the more complex it becomes.

[Print out instructions](#)

Roll a large ball. Start pinching from center to create a bowl.

Roll a rope and form into a circle. Place bowl on rope. Roll 3 balls; flatten around the edges to make scoops of ice cream.

Place scoops of ice cream inside bowl. Roll small balls and flatten to use as topping for ice cream. Roll a ball for the cherry. Roll a small, thin rope for the stem and attach to cherry. Set cherry aside. Roll long, thick rope to be used for ice cream swirl. Lay one end on top of ice cream scoops and start forming in a spiral.

Continue to form ice cream swirl. Place cherry on top. Add more topping circles. What a sweet-looking treat! Congratulations on building your own ice cream sundae!

Sailboat

Level: Intermediate

Using the basic shapes key above, follow the easy step-by-step instructions below to make your PLAY-DOH creation. Keep practicing, and you'll get better at making all of the shapes. Use our color suggestions, or try your own! The less shapes you use, the more simple your creation. The more shapes you add, the more complex it becomes.

[Print out instructions](#)

Make a flattened half-moon shape for the hull. Roll 2 cones, one a bigger than the other. Flatten into triangles for the sails.

Roll a thin, medium-length rope for the mast. Attach sails to either side of mast. Roll a

small cone to use for a flag, 3 smalls balls to use for windows, and a small, thin rope to use for sail stripes.

Flatten balls to front of hull for windows. Flatten two pieces of rope at top of large sail to make stripes. Flatten cone into a long flag and attach to top of mast. Crinkle flag.

Ahoy matey! You just made a sailboat! Great job!
